

It has come to my attention that LPFM stations could soon take the place of FM translator svc. I would hate to see this happen as my community would lose the transmission of stations such as K-Love Radio network. It is the one station I can feel comfortable that my children will only hear appropriate music and conversations. I know that there is freedom in speech, shouldn't there be freedom in listening as well? Please do not take this away from us. Thank You, Rhonda Harley
